January 19, 2024

Dear Greek Orthodox Church of the Holy Cross,

Immaculate Heart of Mary School would like to cordially invite your congregation to our TK-8 campus, located across from Belmont's iconic Carlmont Shopping Center on Alameda de Las Pulgas and Ralston Avenue. Be our special guests from **3-6 pm, Friday, January 26**, as we host our **Third Annual S.T.R.E.A.M. Carnival**.

STREAM stands for Science, Technology, Religion, Engineering, Art, and Math. The Carnival coincides with our school's **Open House** and will feature flying drones, surgical robots, autonomous vehicles, and interactive booths where students and visitors can also take part in the STREAM fun.

If your congregation is not familiar with IHM School, this is a wonderful opportunity to get to know us. Our families consider IHM to be a hidden gem because our beautiful campus is surrounded by lush foliage, neatly tucked behind the Church of the Immaculate Heart of Mary where our school community attends Mass together every Friday.

Our Carnival theme this year is **Robotics and Engineering**. We will have a local fire captain demonstrating the critical role of drones in fire & rescue operations, surgical robots used in laparoscopic procedures, a driverless taxi of the future, and activity centers where kids can make art using LEDs, use fruit to complete electrical circuits, and see chemical reactions take place right before their eyes.

If any family in your congregation is interested in our TK-8 school for their students but cannot make it on January 26, they are welcome to schedule a personal tour at any time by visiting our website, [ihmschoolbelmont.org](http://ihmschoolbelmont.org), and clicking on **Tour Cougar Country** in the top red banner.

Sincerely,

*Dr. Andrea Harville*

Principal
